Joke Generation 😂

Instruction: Write a joke about octopus.
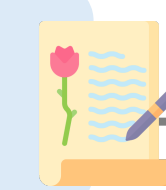

Output (VS):
- Why don't octopi make good drivers? Too many arms on the wheel!" *(Prob: 0.24)*
- What do you call an octopus magician? Abra-ca-tentacle! *(Prob: 0.20)*
- What did the octopus say when it won the lottery? 'I'm ink-redibly lucky! *(Prob: 0.15)*
- Why did the octopus fail art class? It kept drawing self-portraits with the wrong number of arms! *(Prob: 0.18)*
- What's an octopus's favorite subject in school? Algae-bra! *(Prob: 0.04)* ......

Output (Direct):
Why don't octopuses ever lose at poker? Because they're always armed! 🐙

Poem Writing 🌷📝

Instruction: Write a poem starting with the line: "I stand alone in darkness,"

Output (VS):
- ..., Like a lighthouse lost at sea, // My beacon cuts through shadows, calling out for ships to see. // Though waves of doubt crash wildly and storms of fear rage on, // I'll shine until the morning brings the hope of breaking dawn. *(Prob: 0.11)*
- ..., But I am not alone, // For memories surround me, Of love I've always known. // The darkness cannot steal, The light within my soul, // For even broken pieces, Can still create a whole. *(Prob: 0.09)*

Output (Direct):
..., Where shadows dance and play, // The silence wraps around me, Like night consuming day. // Yet in this quiet solitude, I find a gentle peace, // The whispers of my heartbeat, Bring moments of release.

Story Generation 📖

**Instruction:** Write a short story about a bear.

Output (VS):
- In the bustling city of Chicago, a small teddy bear named Patches lived on the shelf of Murphy's Toy Store. Day after day, children would pick him up, then choose newer toys instead.... *(Prob: 0.18)*
- Professor Theodore Bear adjusted his tiny spectacles before the classroom. As the woodland school's most learned instructor, he specialized in teaching important life skills like berry identification.... *(Prob: 0.12)*
- ...

Output (Direct):
Deep in the emerald forest, a bear named Willow awoke from her winter sleep... She wandered through glades for honey... Willow found a wounded animal... She offered kindness and helped the animal and they became friends. With each new day, Willow discovered that kindness brought more warmth than even the golden sun.

Random Number Generation 🎲

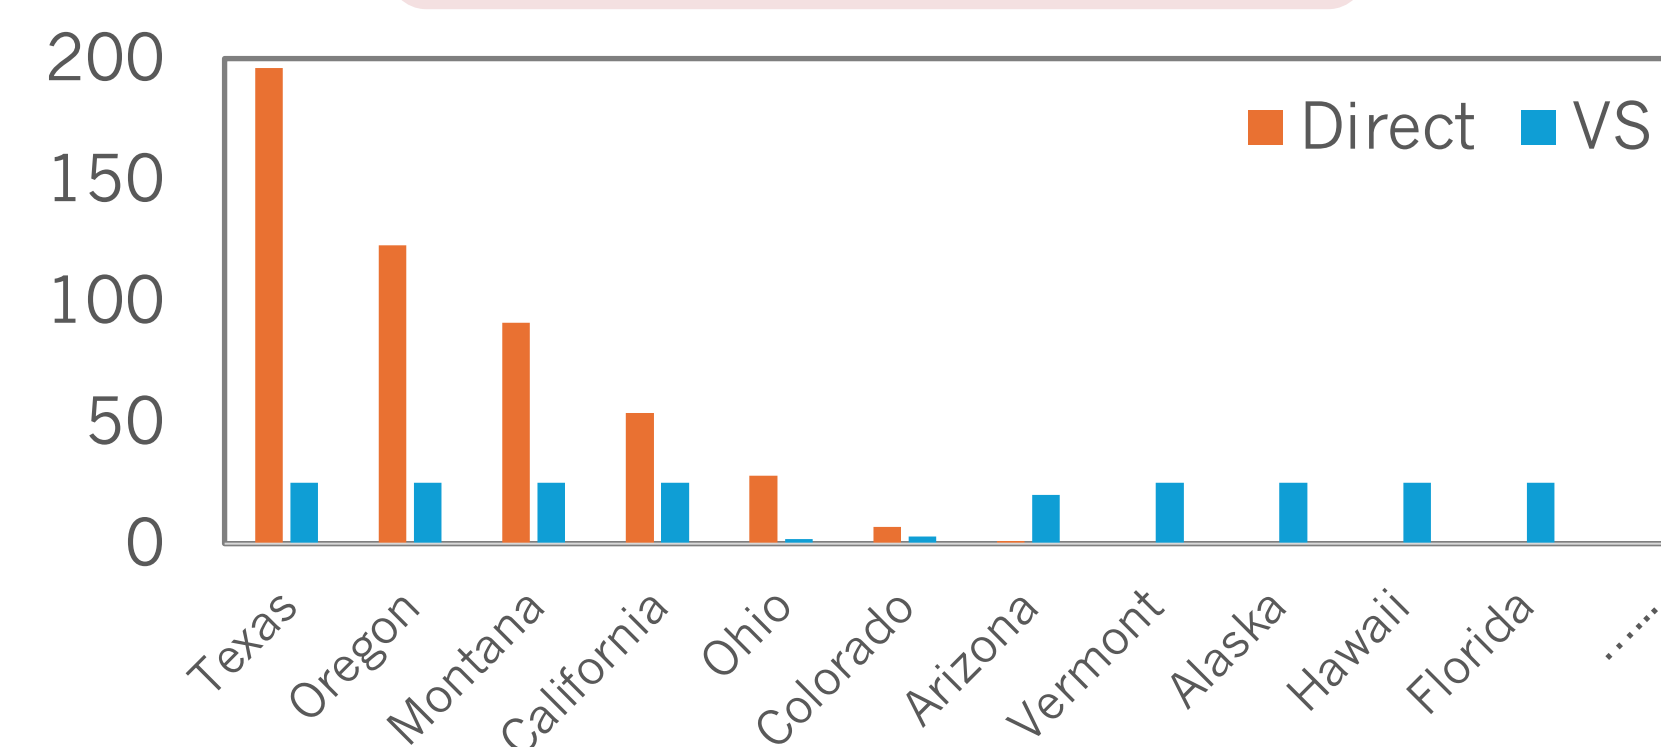

Instruction: Roll a fair six-sided dice.

Output (VS):
- 1 *(Prob: 0.167)*,
- 2 *(Prob: 0.167)*,
- 3 *(Prob: 0.167)*,
- 4 *(Prob: 0.167)*,
- 5 *(Prob: 0.167)*,
- 6 *(Prob: 0.167)*

Output (Direct):
4

## State Name Generation 🗺️

Instruction: Name a US state.

Output (VS):
- California *(Prob: 0.25)*,
- Alaska *(Prob: 0.17)*,
- Vermont *(Prob: 0.12)*,
- Maine *(Prob: 0.15)*,
- South Dakota *(Prob: 0.11)*,
- ......

Output (Direct):
Texas

Synthetic Data Generation 📊⚙️

Instruction: Generate math word problems, similar to GSM8K Dataset.

Output (VS):
- A pizza is cut into 12 equal slices. Tom eats 3 slices, Jerry eats twice as many slices as Tom, and the remaining slices are divided equally among 4 friends. How many slices does each friend get? *(Prob: 0.16)*
- ......

Output (Direct):
Sarah bought 3 packs of colored pencils. Each pack contains 12 pencils. She gave 5 pencils to her friend and then bought 2 more packs. How many colored pencils does Sarah have now?
